CAREER OBJECTIVE

Aspiring Computer Science Engineer with a strong interest in Web Development and Artificial Intelligence. Eager to learn and build real-world applications while contributing to innovative and impactful projects in a collaborative environment.

EDUCATION

Bachelor of Technology in Computer Science Engenering from GANGA College.(May 2024-May 2028) *Current till 2th Semester.*

Completed 12th from D.S. College(BSEB) (April 2022-April2024)

Percentage: 72%

Completed 10th from UMS school(BSEB)(April 2020-April 2021)

Percentage: 78%

SKILLS

Frontend Development

- Languages : HTML, CSS, JavaScript, TypeScript
- Frameworks/Libraries : React.js, Next.js,
- Tools: Git, VS Code, Postman

Soft Skills

- Problem-solving
- Team collaboration
- Time management

Backend Development

- Language : JavaScript, TypeScript, Java, Node.js
- Libraries : Express, MongoDB, MySQL, zod, dotenv
- Tools: Postman, MongoDB Atlas, Git & GitHub

Programming Language

- C
- C++
- python

PROJECTS

E-commerce Website

- **Objective:** To develop a responsive and modern e-commerce frontend interface that allows users to browse products, manage cart items, and experience a seamless shopping flow across devices.
- **Tools & Technologies:** Frontend: React.js, Tailwind CSS, React Router, Context API
- **Outcome :** Implemented a fully responsive UI with product listing, cart, and checkout flow. and user-friendly design that adapts across mobile, tablet, and desktop screens.

Hospital Management System

- **Objective :** To develop a hospital management system focused on appointment booking, enabling patients to schedule consultations and manage treatment tokens efficiently.
- **Tools & Technologies :** React.js, Tailwind CSS, React Router, Node.js, Express.js, MongoDB, JWT
- **Outcome:** Implemented real-time token booking and appointment system for patients. and Achieved a smooth and responsive user interface for both doctors and patients, improving usability across devices.

SUMMER TRAINING

05/2024 – 07/2024

Web Development Training

IBM Pvt. Ltd. (Online)

- Learned fundamentals of web development including HTML, CSS, JavaScript.
- Built responsive web pages and UI components using Bootstrap and Tailwind CSS.
- Worked with React.js for building dynamic and modular web applications.

ACHIEVEMENTS

🏆 1st Prize – Project Competition (Achiever Party 2025)

Won 1st place in a college-level tech competition for building Aarogyadwar, a healthcare web application focused on online doctor consultation, token booking, and medicine ordering.

📜 C Programming Certificate

Participated in a C Programming learning program and successfully received a certificate for completion.

CERTIFICATES

- IBM : Web Development Certificate
- Ultimate Engineer Project Competition Certificate
- C Programming Certificate
